

SUMMARY:

Front-end developer with over a year of experience in HTML5, CSS3, JavaScript, and TypeScript. Proficient in React.js and Vue.js, with a strong ability to build responsive and user-friendly web applications. Demonstrated expertise in collaborating with cross-functional teams to deliver high-quality software solutions.

SKILLS:

Languages : JavaScript | TypeScript | HTML5 | CSS3
Frameworks : React.js | Vue.js
Libraries : Bootstrap | Tailwind CSS | Material-UI | Redux
Tools : VS Code | Git | GitLab | Figma | Webpack | Vite
Database: Firebase

EXPERIENCE:

- ♦ **Front End Developer | Freelance (Remote)** Apr 2024 – Present
 - Designed and implemented responsive web interfaces using HTML5, CSS3, and JavaScript.
 - Developed dynamic user experiences with React and Vue.js, ensuring cross-browser compatibility and performance optimization.
 - Collaborated with clients to deliver customized solutions, frequently iterating based on feedback to enhance user satisfaction.
 - Maintained project documentation and provided technical support post-deployment.
- ♦ **Front End Developer Intern | Growintern (Remote) | [Certificate](#)** Dec 2023 – Jan 2024
 - Developed features using React and ReduxToolkit, focusing on scalability and code reusability.
 - Implemented designs from Figma, ensuring pixel-perfect accuracy and adherence to UI/UX best practices.
 - Resolved bugs and ensured application functionality through rigorous testing and debugging, contributing to a smoother user experience.
- ♦ **Front End Developer Intern | Vetron IT Services (Surat, India) | [Certificate](#)** Aug 2023 – Sep 2023
 - Enhanced UX by developing responsive web applications, optimizing them for performance across devices.
 - Refactored codebase for improved performance and maintainability, reducing load times by 20%.
 - Worked closely with backend developers to integrate APIs, ensuring seamless data flow and functionality.

EDUCATION:

North Maharashtra University | Jalgaon, India May 2011 – April 2015
Bachelor in Engineering | Instrumentation and Control

PROJECTS:

- ♦ **[Amazon Clone](#) | HTML5, CSS3, JavaScript** [Source Code](#)
 - Built a feature-rich e-commerce site with React, incorporating complex state management using Redux.
 - Implemented a responsive UI with Tailwind CSS, ensuring a seamless user experience on all devices.
 - Optimized build with Vite and managed the project with GitHub, ensuring fast loading times and smooth deployment processes.
- ♦ **[E-Commerce Website](#) | React, Redux, Tailwind CSS** [Source Code](#)
 - Developed a modern site using HTML5, CSS3, and JavaScript, with a focus on modularity and code reusability.
 - Optimized for speed and responsiveness, improving site performance by implementing lazy loading and code splitting.
 - Deployed via GitHub Actions, automating the build and deployment pipeline for continuous integration.
- ♦ **[Cake Shop Website](#) | Bootstrap, JavaScript** [Source Code](#)
 - Created a responsive cake shop site with Bootstrap, implementing custom animations and user interactions.
 - Managed version control with GitHub, ensuring seamless collaboration and project tracking.
 - Integrated a contact form with JavaScript validation, enhancing the site's interactivity and user engagement.
